2004

With a strong commitment to construction reliability and sonic purity, and an enthusiastic dedication to modern music cultures, ECLER designs and manufactures today's finest mixing instruments for Djaying.

ECLER produces all its equipment in Barcelona - Spain since 1965, in partnership with international leading performers (PRO TEAM), and through a very strict in-house quality control. With over a quarter of century, ECLER is still today's leading European Mixer manufacturer worldwide.

« Designing the perfect instrument relies on a perfect combination between engineering know-how and inputs from experienced performers »

ECLER as a Professional Audio engineering has always maintained a strong relation with active performers, the «PRO TEAM», an international crew of professional and confident supportive artists that represents the whole modern music scene: Turntablists, Producers, Club Djs, Mobile Djs, Radio Djs, Music Academy lecturers, Battle Djs, Band Djs etc ...
